## What is Basic Interior House Cleaning?

A standard interior house cleaning shouldn't be a one-size-fits-all service.

Kwantem Cleaning Services works with you to create a customized cleaning plan tailored to your budget and specific needs, from the tasks you want completed to the frequency of service.

Still, customization aside, on a basic level there are some things you can reasonably expect will be included in a recurring general cleaning package. The idea is to maintain a high level of cleanliness on a regular basis such that build-up doesn't have a chance to happen.

Here's what will likely be cleaned, scrubbed, dusted or polished in each room of the house during a basic session.

## Standard Kitchen Cleaning

The kitchen is one of the most high-traffic areas of any home, so it usually needs a lot of attention.

- Emptying trash cans and relining receptacles with clean bags

## **Standard Bathroom Cleaning**

If you want to talk about germs, look no further than the bathroom. It's really important to keep this area of the house spic-and-span. Standard bathroom cleaning tasks should include:
